

**REMARKS**

This application has been carefully reviewed in view of the above-referenced Advisory Action, and reconsideration is requested in view of the above amendments and the following remarks.

Applicant stands by the arguments made in the prior Office Action response and reserves the right to pursue additional claims in one or more continuing applications. However, the present amendment clearly places the application in condition for allowance in view of cancellation of all rejected claims. Applicant presumes that the prior amendment was not yet entered, and therefore presents the present amendments under that assumption.

In view of these amendments, all claims are submitted to be allowable and notice of allowance is respectfully requested at an early date.

Respectfully submitted,

/Jerry A. Miller 30779/
